Summary

I am a dedicated student at the University of Advancing Technology pursuing a Bachelor of Science degree in Computer Science and Artificial Intelligence. My passion for technology extends beyond the classroom, as I am currently interning with Grab The Axe in the dual role of software developer and team lead. Proficient in various programming languages, I am eager to apply my skills and enthusiasm to work with cutting-edge technologies and drive innovation in the tech industry.

Work Experience

Software Development Intern - Grab The Axe
(05/2023 - PRESENT)

- Collaborated with a team of developers to create an AI assistant based on LLM Llama2 as a standalone application for Android/IOS
- Participated in team meetings and brainstorming sessions to identify innovative solutions
- Assisted in the testing and quality assurance of the software
- Supported the team in documentation and report preparation
- Demonstrated adaptability and a willingness to learn in a dynamic work environment

Team Lead - Grab The Axe
(08/2023 - 12/2023)

- Led and managed a team of 8 members to achieve project goals and meet deadlines
- Coordinated project planning, including task allocation, timeline development, and resource management
- Conducted regular team meetings to provide guidance, ensure alignment with project objectives, and address challenges
- Fostered a culture of teamwork, motivation, and continuous improvement within the team

Education

University of Advancing Technology
(07/2021 - 05/2024)

- Developed deep knowledge in programming languages like Java, Python, SQL, C++, HTML, CSS
- Created various projects using software development skills
- Developed strong communication skills via teamwork and leadership
- Took part in various school challenges in development competitions
